## **DT-207/208 Even Though Mini Size, Still With Standard POS Function to Support Your Daily Business Running**

TAIPEI, TAIWAN, Oct. 14th, 2008 –

Mini POS DT-207/208 are Posiflex's new mini size FanFree POS created for retail segment, including the extended functions in a very reduced space.

Comfortable and efficient, Mini POS DT-207/208 offer the great deal of advantages; the flexibility of the connective interface and almost invisible in the front counter; its very small construction and adaptability in every environment.

### **Mini size but with Standard POS full function**

DT-207/208 series are constructed by the metal housing including the storage room for CPU, HDD, optional Wifi module ...etc and able to support various OS system, already make DT-series a professional POS system, but with the much more affordable price offering. A UPS system is built in the DT-207/208 to prevent any unexpected power failure to cause the data lose.

### **Provide the Supreme Value**

DT-207/208 applies the patent FanFree design, which provides the excellent thermal dissipation, and Non-touch (DT-207)/Touch (DT-208) Panel provides the easy operation value. Furthermore, DT-207/208 designed as the desktop terminal with minimal footprint, the mini size and lightweight not only allow using in the area with minimum of space but it's high performance helping business owner with cost effective computing & reliable operation environment.

### **Support Diversity of OS Environment.**

DT-207/208 support DOS, WinCE, WEPOS and Linux OS environment.
