

Product Launch Notice

AURA-5200E

2011-12-06

Dear Partners,

Posiflex unveils the AURA-5200E as an enhanced printer from the popular AURA-5200. The AURA-5200E has become one of retailer’s favorite printers with its 2” printing paper and blistering 220 mm/s printing speed to meet space-sensitive applications. It retains all the endearing qualities that made AURA-5200 successful, as well as adopts a faster processor and QR code support. The AURA-5200E demonstrates its versatility by offering an even better printing performance, while becoming an integral part of retailer’s promotional activities with QR code printing support.

Features:

- 2” high-speed thermal printer with auto cutter
- Printing speed up to 220 mm per second
- High-resolution print : 8 dots / mm and 432 dots / line
- QR code printing support
- Auto cutter with additional manual cutter
- Drop-and-load structure for paper loading
- Desktop or wall mount solution for flexible deployment
- Control over 2 drawers through 1 port
- Enhanced capability with kitchen bell for reminder function

Ordering Model :
