## KS-6910

2011-11-04

**One-Stop Hardware Solution Provider**

**Dear Partners,**

Posiflex releases KS-6910 which has built-in MSR function (Optional) in its compact case. The integrated design not only enhances the convenience of cashier's operation but also neat look. It may be small but can be a big deal, supporting up to Intel Dual Core 1.8 GHz CPU (Optional), DDR3, and 10" touch screen. The KS-6910 brings better performance with accessories like the easy-to-reach side programmable keypad that raises the efficiency of input, the wall mounting kit that raises the flexibility of deployment, the customer pole display that raises the visibility of promotions, and so on.

### Features:

- Equipped with Intel Pine View D425 or D525 Dual Core (Optional) 1.8 GHz CPU and DDR3
- SSD or CF card for more storage options (Optional)
- Resistive touch screen, 10" LCD monitor 800 x 600 resolution
- Fan-free design boasting quiet and anti-dust features
- Aluminum die casting design for efficient cooling
- Built-in MSR function (Optional)
- Side mounted programmable keypad (Optional)
- Wall mounting option (Optional)
